## Businesses erect wind turbine

*Submitted story*

BAY TOWNSHIP --The wind energy industry has moved to Ottawa County and is beginning to employ local workers.

Two local businesses have teamed up to erect the sleek and aerodynamic turbine that will supply all of the electrical needs for Happy Days Boating without consuming any natural resources or emitting any pollution or greenhouse gases.

John Fellhauer of In-Focus and Curtis Stokes of Kingdom 7 Solar and Wind are part of the install team while Mike Spacek is the electrical engineer who did the grant writing.

This is the largest wind turbine in Ottawa County to date, according to the press release.
